# LET ME ENTERTAIN YOU!

## 'Ragtime' Jack Radcliffe

Charming, dazzling and  
uplifting piano, guitar,  
fiddle, banjo & song,  
celebrating  
Americas's music.

## **‘Ragtime’ Jack Radcliffe:**

Jack has been performing for more than 45 years. He is a master of traditional country blues and ragtime & stride piano, and a powerful singer and interpreter of song, as well. He was recently inducted into the Old Time Country Music Hall of Fame, alongside Patti Page and Joann Cash.

His repertoire covers the spectrum from Appalachia to Broadway, and from Vaudeville to New Orleans.

His energy is infectious and his performances are always uplifting, engaging, and informative.

## **What others have said:**

*“When Jack sits down at the piano, you don’t need a time machine. The world goes into a fugue state, James P. Johnson and Fats Waller emerge from the Other Side, and Jack converses with them in an idiom it takes a lifetime to learn. Judging by the recent spate of new old jass he’s been making up, I think he’s just about got it!”*

— Andy Cohen, singer, music historian, and finger-picking guitarist extraordinaire

*“An imaginative and expressive right hand over a powerfully rhythmic and energetic left.”*

— John Wilson, *The New York Times*

*“‘Ragtime’ Jack Radcliffe tackles one of the most difficult piano styles on this planet, and comes up in spades.”*

— Big Earl Sellar, *The Green Man Review*

*“Thank you so much for playing for our group ... you were an integral part of the success of the evening. Your playing was perfect for the venue and occasion. ... I very much look forward to working with you again in the future.”*

— Laura Keeler, *Corinthian Events*
